

General Information Leaflet - Personal Pension Plan

The Plan	The Equitable Personal Pension Plan is subject to the rules of the Equitable Personal Pension Scheme. This is a UK registered pension scheme. The HMRC reference number is 00605477RG. It is not an occupational arrangement.
Guaranteed Annuity Rates	There are no guaranteed annuity rates under this policy.
Commission	We do not pay commission or loyalty bonuses to Independent Financial Advisers or any other third party.
Guaranteed Investment Return (GIR)	Most with-profits pension policies taken out before 1 July 1996 provided a GIR of 3.5% pa. This increases the guaranteed benefit over time.
Guaranteed Minimum Pension (GMP)	There is no GMP liability under this policy.
Loyalty Bonus	We do not pay a loyalty bonus.
ORIGO Options Pension Transfer	We do not currently support this.
Governance Advisory Arrangement	If your personal pension plan originated through an arrangement with your employer, we have appointed Pitmans Trustees Limited (PTL) to independently confirm that the Equitable is providing value for money on this type of policy.

This state of affairs is known as a Governance Advisory Arrangement. From April 2016, PTL will publish an Annual Report of their conclusions. You can find this report and PTL's terms of reference on our website within the 'Forms and Documents' section in the 'Policyholders' tab.

If you wish to raise any aspect of your plan with PTL, kindly let us know, and we will pass your representations to them.

With-Profits Values	With-profits policies have a guaranteed value which is the minimum amount payable on retirement, maturity, death or at a time specified in the policy. Your policy document sets down exactly when the guarantee applies. The guaranteed value will increase by up to 3.5% pa.
----------------------------	--

If you take your investments at a time when the guarantee applies, we work out the amount we pay by looking at:

- your Policy Value, which depends on the type of policy you have, the amount of premiums you have paid and when you paid them, the investment returns on the fund, the costs and charges, and any other profits and losses from the Society's business; plus
- an amount which represents the share of capital that has been allocated to your policy and is payable when your policy is paid out.

We compare the total of these two parts with the guaranteed value and pay the larger figure.

If you take your investments at a time when the guarantee does not apply, a transfer value is payable. This is calculated as the total of the Policy Value and the share of capital described above. Depending on the Society's financial circumstances at the time of transfer, this value may be reduced by a financial adjustment. Currently, the financial adjustment is nil (0%). Transfer values can go down as well as up.

Further details on the with-profits fund including the asset mix can be found on the website in the Principles and Practices of Financial Management.

Unit-Linked Values

When you take your investments, the amount will be worked out using unit prices applicable at that time and will be based on premiums paid up to that date. Unit prices can go down as well as up.

Unit-linked funds are managed by Aberdeen Asset Management.

Switching Funds

There is no charge for switching funds. We reserve the right to deduct a charge in future without notice.

The with-profits fund available for switching will be the underlying value of the policy plus any Capital Distribution, reduced by the financial adjustment where the switch occurs before age 75.

Any GIR will no longer apply to any funds switched out of the with-profits fund.

Unit-linked funds cannot be switched into with-profits if future contributions to with-profits cannot be accepted (see 'Contributions to With-Profits' below).

There is no restriction on the number of funds you can invest in.

Further details are found in "A guide to how we manage our unit-linked funds" and "A guide to how we manage the with-profits fund". These guides are available on our website which also includes unit-linked fund prices, performance and factsheets.

Minimum Retirement Age

This is age 55, unless you had a lower age agreed prior to 6 April 2006 due to a special occupation. There is no upper age limit for taking retirement savings.

Ill Health

You may be able to take your retirement savings before age 55 where you are incapable of carrying out your occupation.

Retirement Options

- Take some or all of your retirement savings as cash. A quarter of each amount taken is tax free and the rest taxed at your marginal rate.
- Transfer your retirement savings to another company. You must do this if you want to use your retirement savings for income drawdown. We send your whole fund to your chosen provider and they pay your tax free cash.
- Use your retirement savings to buy an annuity on the open market. We pay your tax free cash and send the rest to your chosen company to buy an annuity.

Pension Commencement Lump Sum (PCLS)

You can usually take up to 25% of your retirement savings as a tax free cash lump sum, also known as PCLS.

Protected Tax Free Cash

There is no protected cash available under this policy.

Death Benefits

The rules of the scheme give Equitable Life discretion to choose who should receive the proceeds of the policy. You may nominate who you would like the benefits to be paid to, and we will take this into consideration when deciding who should receive the benefits.

If you die before retirement savings are taken, the fund is payable as either a lump sum or a pension. If you die after your 75th birthday, any death benefits may be taxed.

Contributions to With-Profits	If with-profits contributions are not made in accordance with the policy terms and conditions, no further contributions to purchase with-profits benefits will be accepted. The main condition is that a contribution must be invested in the with-profits fund at least once in each policy year.
Contributions to Unit-Linked	Contributions to purchase unit-linked benefits can be started or stopped at any time.
Clients Over Age 75	No contributions may be paid after your 75th birthday.

Contribution Charges	<p>This is 4.5%. For with-profits contributions the charge is deducted before buying retirement savings by applying a 95.5% Allocation Rate.</p> <p>For unit-linked contributions it is applied through the bid/offer spread.</p> <p>Further details can be found on our website in “A guide to how we manage our unit-linked funds and “A guide to how we manage the with-profits fund”.</p>
Annual Charges	<p>With-profits funds - 1.5% Unit-linked funds - 0.5%, 0.75% or 1% depending on the fund</p> <p>These annual charge rates are not guaranteed.</p> <p>There are no additional charges or penalties for ceasing, amending or restarting contributions.</p>
