### Ill Health

You may be able to take your retirement savings before age 55 where you are incapable of carrying out your occupation.

### Retirement Options

- Take some or all of your retirement savings as cash. A quarter of each amount taken is tax free and the rest taxed at your marginal rate.
- Transfer your retirement savings to another company. You must do this if you want to use your retirement savings for income drawdown. We send your whole fund to your chosen provider and they pay your tax free cash.
- Use your retirement savings to buy an annuity on the open market. We pay your tax free cash and send the rest to your chosen company to buy an annuity.

### Pension Commencement Lump Sum (PCLS)

You can usually take up to 25% of your retirement savings as a tax free cash lump sum, also known as PCLS. If you are entitled to more than 25%, this will be shown on the Policy Specific Sheet that will be issued under separate cover.

## Death Benefits

If you die before retirement savings are taken, the fund is payable as either a lump sum or a pension. If you die after your 75th birthday, any death benefits may be taxed.

## **With-profits Information**

### **With-profits Values**

With-profits policies have a guaranteed value which is the minimum amount payable on retirement, maturity, death or at a time specified in the policy. Your policy document sets down exactly when the guarantee applies. There is no guaranteed investment return.

If you take your investments at a time when the guarantee applies, we work out the amount we pay by looking at:

- your policy value, which depends on the type of policy you have, the amount of premiums you have paid and when you paid them, the investment returns on the fund, the costs and charges, and any other profits and losses from the Society's business; plus
- an amount which represents the share of capital that has been allocated to your policy and is payable when your policy is paid out.

We compare the total of these two parts with the guaranteed value and pay the larger figure.

If you take your investments at a time when the guarantee does not apply, a transfer value is payable. This is calculated as the total of the policy value and the share of capital described above. Depending on the Society's financial circumstances at the time of transfer, this value may be reduced by a financial adjustment. Currently, the financial adjustment is nil (0%). Transfer values can go down as well as up.

Further details on the with-profits fund including the asset mix can be found on the website in the Principles and Practices of Financial Management.

### **Switching Funds**

There is no charge for switching funds. We reserve the right to deduct a charge in future without notice.

The with-profits fund available for switching will be the underlying value of the policy plus any capital distribution, reduced by the financial adjustment, currently nil, where the switch occurs before age 75.

Any guarantees will no longer apply to any funds switched out of the with-profits fund.
