

Equitable Life

General Information Leaflet - Managed Pension Plan

The Plan	The Equitable Managed Pension Plan (often referred to as a drawdown pension) is subject to the rules of the Equitable Personal Pension Scheme. This is a UK registered pension scheme. The HMRC reference number is 00605477RG. It is not an occupational arrangement.
Guaranteed Annuity Rates	There are no guaranteed annuity rates under this policy.
Commission	We do not pay commission or loyalty bonuses to Independent Financial Advisers or any other third party.
Guaranteed Investment Return (GIR)	Most with-profits pension policies taken out before 1 July 1996 provided a GIR of 3.5% pa. This increases the guaranteed benefit over time.
Guaranteed Minimum Pension (GMP)	There is no GMP liability under this policy.
Loyalty Bonus	We do not pay a loyalty bonus.
ORIGO Options Pension Transfer	We do not currently support this.

With-Profits Values With-profits policies have a guaranteed value which is the minimum amount payable on retirement, maturity, death or at a time specified in the policy. Your policy document sets down exactly when the guarantee applies. The guaranteed value will increase by up to 3.5% pa.

If you take your investments at a time when the guarantee applies, we work out the amount we pay by looking at:

- your Policy Value, which depends on the type of policy you have, the amount of premiums you have paid and when you paid them, the investment returns on the fund, the costs and charges, and any other profits and losses from the Society's business; plus
- an amount which represents the share of capital that has been allocated to your policy and is payable when your policy is paid out.

We compare the total of these two parts with the guaranteed value and pay the larger figure.

If you take your investments at a time when the guarantee does not apply, a transfer value is payable. This is calculated as the total of the Policy Value and the share of capital described above. Depending on the Society's financial circumstances at the time of transfer, this value may be reduced by a financial adjustment. Currently, the financial adjustment is nil (0%). Transfer values can go down as well as up.

Further details on the with-profits fund including the asset mix can be found on the website in the Principles and Practices of Financial Management.

Unit-Linked Values When you take your investments, the amount will be worked out using unit prices applicable at that time and will be based on premiums paid up to that date. Unit prices can go down as well as up.

Unit-linked funds are managed by Aberdeen Asset Management.

Switching Funds

There is no charge for switching funds. We reserve the right to deduct a charge in future without notice.

The with-profits fund available for switching will be the underlying value of the policy plus any Capital Distribution, reduced by the financial adjustment where the switch occurs before age 75.

Any GIR will no longer apply to any funds switched out of the with-profits fund.

Unit-linked funds cannot be switched into with-profits.

There is no restriction on the number of funds you can invest in.

Further details are found in "A guide to how we manage our unit-linked funds" and "A guide to how we manage the with-profits fund". These guides are available on our website which also includes unit-linked fund prices, performance and factsheets.

Future Contributions

No contributions will be accepted into this plan

Reviews

Government regulations require us to review the maximum income you are permitted to take every three years or annually from age 75, using the basis set by the Government at the time. If your policy is converted to flexi-access drawdown this maximum is removed.

Frequency of Payments

Income can be taken as a one off single payment or regular payments on a monthly, quarterly, half yearly or annual basis in each policy year, subject to the maximum limit. We will not accept instructions in advance for irregular income payments. Income does not have to be taken every year.

Upper Age Limit

There is no upper age limit for taking income.

Retirement Options

- Convert your policy to flexi-access drawdown and take your remaining retirement savings as a single income payment. Your income payment will be taxed at your marginal rate.
- Use your retirement savings to buy an annuity on the open market. Your savings will be sent to your chosen company to buy an annuity.

Lifetime Allowance

All our income drawdown policies were effected before 6 April 2006, therefore no Lifetime Allowance calculation was required at the time of purchase.

Pension Commencement Lump Sum (PCLS)

Any PCLS (formerly known as tax free cash) required would have been paid at the point this plan was purchased. No further PCLS is payable.

Death Benefits

The rules of the scheme give Equitable Life discretion to choose who should receive the proceeds of the policy. You may nominate who you would like the savings to be paid to, and we will take this into consideration when deciding who should receive them.

There are a number of options available to a nominated dependent. They may continue the existing plan in their own name (taking an income if required), transfer the fund to an income drawdown policy with another provider, use the fund to buy an annuity to provide them with an income for life, take the benefits as a lump sum on the grounds of triviality (if eligible), or take the plan value at the date of death as a lump sum. If you die after your 75th birthday, these benefits may be taxed.

If there is no nominated dependent, or if you have taken over the plan following the death of the original policyholder, the benefits on your death will be paid as a lump sum. If you die after your 75th birthday, this may be taxed.

It is not possible for this policy to be placed in trust.

Annual Charges

With-profits funds - 1.5%

Unit-linked funds - 0.5%, 0.75% or 1% depending on the fund

These annual charge rates are not guaranteed.

Further details can be found on our website in “A guide to how we manage our unit-linked funds and “A guide to how we manage the with-profits fund”.
