

How Our Transfer Process Works

How does the process start?

We receive your request to transfer and send you:

- 'How our transfer process works' leaflet and information
- Statement of Value
- Transfer Payment Form

What do you have to do?

You consider the information sent to you. If you want to go ahead, you need to:

- contact the receiving company and ask them to send us:
 - their bank details
 - confirmation they will accept the transfer
 - a copy of their HMRC registration certificate
- complete and return the Transfer Payment Form

What happens then?

Once we have received everything we need, we make payment normally within 7 days:

- by Bankers' Automated Clearing System (BACS)
- it can take a further 5 days for funds to reach an account

We will send you and the receiving company written confirmation this has happened.

If you would like more information, please contact us:

The Equitable Life Assurance Society is a mutual society registered in England No. 37038.

Registered Office: Walton Street, Aylesbury, Buckinghamshire, HP21 7QW, United Kingdom

Transfers - helpful questions and answers

What are Pension Scams?	Normally a policyholder can only take money from their pension once they are aged 55 or over. Some companies claim to let policyholders gain early access to their retirement savings by borrowing from their fund before they retire. These are commonly known as 'pension scams' and can result in tax charges of up to 70% of your fund. More information is found in the 'Pension scams' leaflet.
What is Flexi-Access Drawdown?	You can convert your existing Managed Pension Plan to flexi-access drawdown. This will remove restrictions on the amount of income you can take. You can then take the full value of your retirement savings as a single income payment, or choose any lower amount.
What is a Pension Commencement Lump Sum (PCLS)?	Any PCLS required would have been paid at the point this plan was purchased. No further PCLS is payable.
What is a Guaranteed Investment Return (GIR)?	With-profits pension policies taken out before 1 July 1996 provide a guaranteed return of up to 3.5% pa. This increases the guaranteed benefit over time. When you transfer all your savings to another company, the guarantee will no longer exist.
